# TiMO™

## Tube Management Organizer

### INGENUOUSLY SIMPLE

TiMO saves time by adding process efficiencies and reducing risk of costly test tube mix-ups. Our customers needed a more secure and professional method for keeping donor test tubes with the blood collection bags.

Labels on tubes tightly wrapped with rubber bands are difficult to scan. Test tubes placed in racks or on counter tops and donor beds can be mixed up or misplaced.

TiMO was designed in consultation with blood center staff to streamline blood sample collection processes and confidently keep test tubes together with blood collection bags and apheresis kits.

### PRODUCT FEATURES

#### Wrap around blood bag

#### Hang from blood bag

#### Hang from hook

#### Loop from blood bag

#### Product Information

- Latex Free
- Single Use Only

#### Product Codes

**C100400** Bulk, Non-Sterile,  
1,500 units/case, 50 units/pack,  
30 packs/case

HUMAN INSPIRED. SCIENTIFICALLY ENGINEERED.
